FIVE CENTS THE COPY

CHINESE WAR RAGES IN CALIFORNIA

COTTON FARMERS DOING OWN WORK OF ORGANIZING

Field Worker for Pontotoc
County Urges Continued
Effort.

Interest in the Oklahoma Cotton Growers' Association has now reached the point where a number of counties have pledged themselves to the state organization committee to secure their quota of members without any outside help, according to J. O. McMin, field worker for the association in Pontotoc county.

The latest county to make this proposal is Latimer, where a locally managed campaign is now in progress. "The greatest enthusiasm is in evidence everywhere," says Mr. McMin. "The campaign is no longer in the experimental or doubtful stage. It is now at the point where success is assured if everybody keeps right up in the collar and pulls his share of the load. This is not a matter in which but one class is interested. The association is purely a cotton selling organization which no one but cotton growers can join or control, but the benefits which it will bring to the cotton producing section of Oklahoma will be shared by everyone no matter in what line of business he is engaged. When the farmer prospers all business prospers. Prosperity for the cotton farmer means prosperity for the merchant, the banker, the butcher, the baker—everybody.

"In our enthusiasm and confidence, however, let us not slow up for a minute, but instead pull just that much harder, set our mark higher and strive to reach it earlier. The earlier we pass the three hundred bale mark, the earlier the association can perfect its permanent organization and the better it will be prepared to serve its members efficiently."

TREASURY OFFICIAL IN COAL DEAL, CHARGE

WASHINGTON.—A former official of the United States treasury, Dix W. Smith, sought to arrange deals for his own profit in August, 1920, George H. Cushing, managing director of the Wholesale Coal Dealers association, told the senate reconstruction committee today.

FIRE DOES \$150,000 DAMAGE AT ENID

(By the Associated Press)
ENID, Feb. 16.—Damage estimated at \$150,000 dollars was done by fire of undetermined origin, which broke out in the fifth floor of the Commerce building here shortly after 6 o'clock this morning. The three upper floors of the building were completely gutted, while merchandise stock belonging to the R. L. Sanford Drug company and the Kennedy Mercantile company, suffered the greatest loss.

Prompt and efficient action on the part of the fire department kept the fire confined to the upper floors of the building.

IDENTIFY HEAD OF SWINDLING GANG

leaders of a band supposed to number 100 swindlers and blamed by the police for the disappearance of C. C. Dukes, a banker of Mila, Ga., four months ago, and the loss to their victims of \$1,500,000, was identified here as Neal McDougall, under arrest on suspicion of having defrauded many Chicago women of valuable jewelry.

Six others of the band have been arrested in Memphis, according to the police. An elaborately equipped club was maintained by the band, police reports said, in which victims were entertained.

MUSTARD GAS DRIVES YEGGS INTO RETREAT

PONTIAC, Mich., Feb. 15.—Two safe-blowers opened the vault in the Farmers and Merchants bank at Utica, near here, early today, but were driven back by a wave of mustard gas, that had been placed in the vault. A car of gas had been placed in the vault by bank officials in such a position that it was broken open when the door was forced.

Even the optimist who has no patience with knocking will be overjoyed again to hear the sound of the builder's hammer.

VISITOR FROM FRANCE LIKES CLIMATE HERE

"No, Ada is not like Paris, but the climate here is just like that of Southern France!" That was the smiling answer of Mrs. G. E. Thompson when asked if Ada "stacked up" with the gay capital of the Frenchman. Mrs. Thompson, whose home is at Marcel, France, is here visiting Mrs. M. E. Battell, of the Glines-Battell store. The two were girlhood chums. Mrs. Thompson arrived last week from Paris. She expects to leave in a few days, and will sail for Europe from New York.

ATE POISON SPINACH THREE NURSES DIE

(By the Associated Press)
LANSING, Mich., Feb. 16.—Several employees of the Battle Creek Sanitarium at Battle Creek, Mich., have died recently under circumstances that indicate botulism poisoning traceable to preserved spinach the state food and drug commissioner announced today.

Another Nabbed for Having Too Much Ginger

Three From Here Are Arraigned Before Federal Court.

U. S. Marshal Brents yesterday arrested O. P. Stewart of Franks for having a barrel of Jamaica ginger in his possession. A Ford truck in which the "jake" was being hauled on the streets of Ada was confiscated by the officer.

Brents says Stewart had just received the barrel from the local express office and had started to drive away with it when he and a deputy sheriff appeared and placed him under arrest.

Stewart, E. T. Merritt and F. Z. Holley were taken to Coalgate yesterday and arraigned before a federal commissioner on charges of violating the federal liquor law. Each of the men gave bond for appearance in federal court.

Stewart made a \$1,200 bond today to guarantee the safe return of the truck to the government when his case is decided and was permitted to take it home with him.

"DOCTOR" AND "PROFESSOR" ARE TO BE LIMITED

CHARLOTTESVILLE, Va.—A move to conserve the title "doctor" for sure-enough medical men and abandon that of "professor" for the jazzband leaders, ex-prize fighters and sleight of hand artists has been started by faculty members at the University of Virginia here. The Society for the Rationalization of the title of doctor has been formed for the purpose. It was announced today that a ban had been placed on "professor." Educators to be known as plain "mister" without frills excepting the case of medical members of the faculty who would continue to be known as "doctor."

NEW METHOD TESTS VALUE OF EMPLOYEE

CLEVELAND.—An entirely new method of measuring the value of an employee's work is receiving its first test in the garment industry here. Scientifically determined standards of work have been installed.

The wage standards, as they are called, were determined after six months of intensive time studies of actual operations. The Cleveland Garment Manufacturers association and the six locals of the International Garment Workers union joined in paying the expense.

The amount of work an average employee can do in a week is considered 1,000 points for which a stipulated weekly wage is paid. For all that an employee does above the average standard he is paid extra, according to the regulated scale.

In addition to guaranteeing the worker a minimum weekly wage and paying him for all he produces above that the plan provides for paying the worker during whatever idle time there may be in his work day.

Now someone suggests coining a half nickel. Give the nickel time and it may some day again be worth that much.

ADA'S PROBLEMS THRESHED OUT AT BOARD MEETING

Chamber of Commerce Considers New Enterprises for the City.

With sleeves rolled up, the board of directors of the Ada Chamber of Commerce last night plunged into a mass of accumulated business. The building of city storm sewers, the endowing of a proposed street railway system for the city, the erection of a new hospital, the organization of a local battery of the national guard, public improvement work and the providing of employment for the unemployed of the city, all come in for consideration. The members worked harmoniously until all had been disposed of.

Wants Militia Unit

Captain Penney appeared before the board and told of the unsuccessful efforts which had been made to organize a National Guard artillery battery at Ada, and asked the Chamber of Commerce to lend their support in one more concerted effort to secure the 25 recruits needed to complete the organization.

Captain Penney read a letter recently received from Adjutant General Chas. F. Barrett which explained the necessity for earnest efforts to complete the organization of artillery units at the earliest possible date. The letter explained that a recent ruling of the federal militia bureau had authorized the organization of four additional artillery batteries in Oklahoma in lieu of four other departmental units which were withdrawn. One of the batteries has been organized, leaving three more for the state. Batteries are in process of organization at Ada, Madill, Pawhuska and Hennessy. The adjutant general will muster in the first three cities.

CABINET POSITIONS ARE NEARLY FILLED

Harding Decides Who Are To Head Government Departments.

(By the Associated Press)

ST. AUGUSTINE, Fla., Feb. 16.—As President-elect Harding continued his conference with the ranking leaders of his party today, it was indicated that completion of the cabinet slate of the coming administration waited only on definite selections for the portfolios of navy, commerce and labor.

By all those in close touch with the situation it was conceded, however, that these selections might not only lead to considerable delay, but might also involve some shifting of the assignments already more or less definitely fixed. It was considered unlikely that any announcement would be made until a day or two before inauguration.

As the list stood today with the navy, commerce and labor vacant, it was understood to contemplate the appointment of Charles Evans Hughes of New York for secretary of state; John W. Weeks, of Massachusetts, for secretary of war; Andrew Mellon, of Pennsylvania, for secretary of the treasury; Will H. Hays, of Indiana, for Postmaster General; Harry Daugherty of Ohio, for attorney general; Henry Wallace, of Iowa, for secretary of agriculture; and A. B. Fall of New Mexico for secretary of the interior.

For the navy portfolio Frank O. Lowden of Illinois is understood to be Harding's choice, but it is uncertain whether he will accept and there has been talk of transferring Mr. Weeks to that position if the Illinois governor definitely declines.

Several names, including that of John Hays Hammond of New York, and Herbert Hoover of California, have been mentioned for the commerce portfolio, while James David of Pennsylvania and a number of others are being urged for secretary of labor.

German militarism seems to have been successful chiefly in reducing the nation's population, which is less now than in 1905.

KINGDON GOULD SUED FOR BROKEN PROMISE TO WED

Kingdon Gould.

Kingdon Gould, son of George J. Gould and one of the younger members of the wealthy and noted Gould family, has been sued for breach of promise in New York by Mrs. Richard Blum, divorced wife of a New York dentist. She asks \$500,000 damages. Gould is married and has two children. The suit had been kept secret, the action having been taken shortly after his wedding in 1917. Gould, though his attorney, denies the allegations Mrs. Blum makes in her petition.

Taxi Bandits Caught Hiding Under Haystack

Man and Woman Held at
Oklahoma City Are
Identified.

OKLAHOMA CITY, Feb. 16.—A man and a woman found by the sheriff of Canadian county late yesterday sleeping in a haystack near El Reno were brought here today and identified by Bob Squires, taxicab driver as the pair who robbed him Friday night of his automobile and \$49 on the road between here and El Reno, according to an announcement by the police.

According to Lee Mullenix, a member of the police force, the couple gave their names as Mr. and Mrs. Oscar Stone. Mullenix said they told him they had resorted to robbery when other means of making a living had failed. He said they told him they had slept in haystacks for three weeks because they had no other place to go, and that for three days they had not had a real meal.

Mullenix said the pair admitted almost in detail the story told by Squires. According to Squires' story he was engaged to take a man and woman from here to El Reno and was held up when they had gone seven miles into the country. He said the woman covered him with a pistol while the man went through his pockets, hit him over the head with a lead pipe and threw him from the car.

The couple told the police, according to Mullenix, that they obtained only \$5 in the holdup and that the car was overturned near El Reno. The man gave his age as 23 and the woman as 22.

WANTS EXCLUSION BAN ON SINGLE MEN

WASHINGTON.—Measures to restrict immigration on a percentage basis, proposed by the senate immigration committee are designed to check the flow from southern and eastern Europe, without hindering the movement from northern and western Europe, according to the committee report submitted today by Senator Dillingham, republican, Vermont.

The "old immigration" of families from northern and western Europe does not constitute a problem but the new movement of single men from southern and eastern Europe to cities and manufacturing centers in the United States, is declared to be the present emergency which should be dealt with. Such immigrants, it is stated, gather in racial groups and show little tendency to become American citizens.

The report asserts that restrictions should be applied to this type of immigrants.

BUSINESS SOUND BUT CREDIT MUST BE KEPT GOOD

Must Preserve the Basis of
Prosperity, Federal
Board Says.

(By the Associated Press)

WASHINGTON, Feb. 16th.—War time expenditures and the profound modification of the country's economic system, makes it imperative, Governor Harding informed congress today in the annual report of the federal reserve board, that "the utmost care be taken to conserve our credit and preserve the basis of our prosperity to avoid the extreme conditions prevailing in other countries."

"Upon the United States, in a large measure, the solvency and financial stability of many other countries depend," the governor declared. "This fact greatly increases the responsibility, which rests upon the American Banking system and calls for the exercising of sound judgment and strict observation of financial and economic principles.

On Sound Basis

"In the readjustment of business this country is generally recognized as having passed the crisis, and in looking to the future a spirit of greater confidence prevails. "As the year closed there were many indications that business generally was beginning to adjust itself to new conditions and was preparing to proceed on a sounder and saner basis."

WASHINGTON, Feb. 16.—Secretary Houston agreed today with the senate judiciary committee not to make any additional loans to foreign governments, no matter how pressing the demand might be, until he had consulted the committee given it full time for deliberation.

The treasury secretary previously had declined to give his promise that he would make no further advances to the allied government under commitments, which he declared bound him in honor to advance money when it was requested.

Mr. Houston appeared before the committee for questioning. Correspondence and other data he brought was examined by Senator Reed, of Missouri, author of a pending bill to prohibit further advances to foreign nations.

CONSIDER PAVING SOUTH TOWNSEND

Property Owners To Investigate Costs; To Hold Mass Meeting.

Now that the country is back on a normal basis, the people of Ada are once more turning their attention to the paving of the streets in the residential sections of the city. A meeting of property owners representing a frontage of 1,600 feet on South Townsend avenue was held at the city hall last night for the purpose of discussing the advisability of paving at this time.

C. W. Zorn reported a gravel pit adjacent to the city would provide gravel at a cost of \$1.50 a cubic yard delivered. He represented this gravel to be excellent for paving purposes by a mixture of four-to-one, which would greatly reduce the cost of paving over the former estimates.

All present at the meeting expressed themselves as in favor of going ahead with the paving if conditions affecting the work are found satisfactory, and a committee was named to investigate the cost of paving at this time. W. H. Eby, R. W. Simpson, H. G. Huffman, M. E. Qualls and J. F. McKeel were selected to act on the investigating committee. They will look into the condition of floating the bonds at home through local banks and financiers. Labor conditions will also be considered.

The committee was instructed to advertise a meeting of the property owners of South Townsend avenue at an early date by proper notice in the Evening News.

Few persons hold to an idea very long unless it has money-making possibilities.

The more a person keeps his temper the less use he is likely to have for it.

YOUNG DEMOCRATS TO MEET SATURDAY

A Meeting of the League of Young Democrats is called to take place in the district court house here Saturday afternoon at 4 o'clock. Delegates will be named to attend the state convention to be held at Muskogee Tuesday, February 22.

MATTIE L. BROWN
Chairman

WILSON TO GIVE ACCOUNT OF WAR FUND

(By the Associated Press)

WASHINGTON, Feb. 16.—White House officials announced today that President Wilson before his retirement, March 4, would make a final itemized report, showing the disbursements and allotments made by him out of the one hundred fifty million dollar war fund voted him by congress.

The house, after a stormy session yesterday, adopted a resolution calling upon him for such a report.

Sensational Newspaper is Dynamited

Editor Asleep When Heavy
Blasts Shake Whole
Town.

(By the Associated Press)

ROCK ISLAND, Ill., Feb. 16.—The plant of the Rock Island News, a sensational weekly, was dynamited at 4 o'clock this morning, but only slightly damaging the building and machinery. Two blasts awakened hundreds of sleepers and broke windows in many nearby homes.

Dan Prost, editor of the paper, was asleep on the second floor of the building, but was uninjured. Several months ago Prost was convicted of criminal libel in Davenport, Iowa, and sentenced to serve a year in jail. He is now at liberty on bond.

Twelve years ago the plant of the News, then a daily, was wrecked by dynamite.

Daughter Convicts Father.

OKLAHOMA CITY, J. E. Kentner, 76, Enid, today was found guilty by a jury in federal district court here, of a charge of having a counterfeit money mould in his possession. Sentence was to be pronounced later.

Mrs. Lula Rule, a daughter, was the principal witness for the prosecution. Federal authorities say Kentner was convicted of a similar crime in California several years ago.

Telephone service from Florida to Cuba is now planned, but more interest would be aroused by a Nye line.

An appalling number of folk seem to have the idea that it takes a lot of exercise to keep the lungs in condition.

Legislature to Act on Trapp Case Today

State Senate To Hold Night
Sessions To Clear the
Calendar.

(By the Associated Press)

OKLAHOMA CITY, Feb. 16.—Action by the house of the Oklahoma legislature in adopting or rejecting the report of the investigating committee recommending impeachment action against Lieutenant Governor Trapp, is expected today. The report was to have been considered yesterday, but on account of the interruption in the program due to the recess in deference to the late ex-Governor Ferguson, the matter did not come up.

Night sessions of the senate are to be held until the calendar is cleared, it was declared yesterday. The first session was held last night. Nearly one hundred bills are on the calendar.

The house bill permitting the state highway department to spend money for building federal aid roads through towns of less than two thousand population was passed yesterday by the senate.

KILLINGS START AT GIVEN HOUR IN THREE CITIES

Chinatown in San Francisco
Resembles Armed Camp
As Feud Rages.

(By the Associated Press)

SAN FRANCISCO, Feb. 16.—A new tong war throughout California was ushered in last night with five deaths and five men wounded in San Francisco, Los Angeles and Stockton, made armed camps of Chinatowns in these three cities today. Where last night the Chinese inhabitants were celebrating their new year with gorgeousness and light hearts, today finds them entrenched behind closed doors, shuttered windows and hidden from possible enemy attack.

In San Francisco last night the war opened in a room where there were six men. Taking advantage of the noise of new year celebration, they began firing point blank at each other. One was killed, another may die from wounds and two others seriously wounded.

At Los Angeles three Chinese were shot down, two dead. One merchant was killed at a card game and another as he stood behind the counter in his shop.

At Stockton, a Tong gunman fired three bullets into the head of a rival tong man as the latter sat with two friends playing dominoes, but this victim will live, it was said.

The shooting all occurred within the space of a very few minutes, so close that the theory was advanced that all had been prearranged. War among the tongs has threatened for months and the police believe it will extend over the entire coast and possibly to eastern cities.

Early morning reports from San Bernardino told of several automobiles carrying Chinese residents of that city, departing toward the Redlands, where there is another Chinese colony.

ABOLISH ARKANSAS CORPORATION BOARD

LITTLE ROCK, Ark.—Gov. T. C. McRae today signed the bill which abolishes the present corporation commission. The governor also announced the appointment of the members of the railroad commission which replaces the corporation commission under the provisions of the bill.

The members are W. E. Floyd, postmaster at Little Rock; J. M. Fritchell of Paragould and Josiah Hardage of Arkadelphia. All accepted the appointment.

A resolution introduced yesterday in the senate by Clark Nichols provides that all school teachers must take oath of allegiance.

Would Release Boys.

A resolution was introduced at the senate session last night, by W. H. Woods of Purcell, proposing that the inmates of the boys' training school at Pauls Valley be paroled until appropriation for its maintenance is provided.

During the debate which followed it was pointed out that the food supply was running low and that the water had been shut off. Senator Wood's resolution was opposed by Senator Nichols of Eufaula, who declared that the boys should not be released, as many have no homes and are possessed of criminal characters.

Fair tonight, colder; Thursday fair, colder in east portion.

GIRL PLIES WHIP ON TURKS TO SAVE ORPHANS AT KARS

Miss Elsie May Kimball.

Miss Elsie May Kimball of Mt. Vernon, N. Y., has distinguished herself as a heroine by driving off, with a whip as her only weapon, twenty Turkish soldiers, members of the forces of the Nationalists, who captured the city of Kars, Armenia. The soldiers were trying to steal blankets from the orphans in the Near East Relief Orphanage in Kars, where Miss Kimball was one of the attendants.

CARUSO, GREAT SINGER NEAR DEATH'S DOOR

(By the Associated Press)
NEW YORK, Feb. 16.—Oxygen today was being administered to Enrico Caruso, world famous tenor, who is waging a fight against death after having been stricken last night with a heart attack that caused his physicians to fear he would succumb before dawn.

NEW YORK, Feb. 16.—An official bulletin issued by Caruso's physician at 11:30 said: "Caruso has rallied from a very serious attack. His condition is not satisfactory, but there is some improvement."

The Oklahoma City College Is Coming For Doubleheader

The first college basketball game to be played this season in Ada will be held next Friday night in the Normal gym between Oklahoma City college and the Normal college. Another game will be played by the same teams Saturday night. The visitors are coming with a strong line-up and have promised the Ada boys a run for their money. They are an experienced team and have played several successful games this season. Clary of the Normal has been keeping his men in shape for the encounter and is confident of a good showing by them. An admission of 50 cents will be charged and the games will start at 7:30. This will be a demonstration of good athletics and both games will be hard fought.

The infant of Mr. and Mrs. W. E. Harper of Truxal died Monday night at their home there. The funeral services and burial took place yesterday afternoon at Frisco cemetery.

J. A. Crane has received word from Pauls Valley of the death of his son-in-law, Hubert Hamilton who died yesterday morning at 5 o'clock.

Aching in the small of the back is an indication of kidney disease. The proper course in such cases is to begin at once the use of Prickly Ash Bitters. It is an effective kidney remedy and system regulator. Price \$1.25 per bottle. Gwin & Mays Drug Co., special agents. (a)

FRUIT AND SHADE TREES

For immediate delivery, all best standard varieties, few grafted pecan trees now on hand at a price. See W. J. Allen at Help Yourself Grocery or phone 412.

THE LEGISLATURE

(By the Associated Press)

OKLAHOMA CITY, Feb. 16.—The house of the Oklahoma legislature today adopted without debate the report of the special investigating committee recommending appointment of a committee to draw up impeachment charges against Lieutenant Governor Trapp as a result of alleged irregularities in private bond transactions in Seminole and Adair counties. No roll call was taken.

OKLAHOMA CITY, Feb. 16.—A bill proposing the submission to the voters of the state of a bond issue of twenty-five million dollars, to provide a bonus for Oklahoma men who were honorably discharged after service in the military forces of the United States during the world war, was introduced in the house this afternoon.

The bill would provide a bonus of \$1.00 a day for each day's service. It was drawn by J. B. Camel of Waukomis, T. E. Beck of Jefferson and L. A. Everhart of Bickford, republicans.

The bond issue would be submitted at the 1922 election. The bill acknowledged the indebtedness of the state to its soldiers and the authors declared they take this

means of compensating the men for losses incurred while in the service.

After the bond issue is voted, it is provided that the bonds be issued by the governor, state treasurer and state auditor and in installments from time to time and in such quantities and at such terms as considered bet.

Kidney disorders cause much distress of mind and body. Such ailments should not be neglected because they lead to diseases that are dangerous. Prickly Ash Bitters is a splendid tonic for men. It strengthens the kidneys and purifies the stomach and bowels. Price \$1.25 per bottle. Gwin & Mays Drug Co., special agents. (adv)

Republican critics of the democratic administration now find that producing a peace program is vastly more difficult than hammering at Wilson's.

THIS CITY MAKES RAPID GROWTH IN FOUR YEARS

(By the Associated Press)

LYNCH, Ky., Feb. 15.—This city is less than four years old and has a population of approximately 7,000 persons, concrete streets and roads, a department store that compares favorably with those of much larger cities, a \$300,000 hotel, a \$1,000,000 bank the largest coal tipple in the world, an 85 bed hospital and a church of every denomination represented in eastern Kentucky. In the opinion of R. B. Clayton, secretary of the Harlan County Coal Operators' association it will be the model mining camp of the country within two more years.

Sitting at the head of the valley of the Poor Fork of the Cumberland river, forty miles above the point where it joins the Clover Fork at Harlan to form the main stream, the town is the base of what is said will be the largest coal operation in the Cumberland mountains when it is completed.

Model cottages for miners and officials are being erected as rapidly as possible. These homes have every modern convenience and are rented at the rate of \$2 per room for houses which are not heated from the central power house and at a figure based on the cost of \$2 per room plus the cost of radiation for homes heated with steam.

The only general store in the community rivals in its appointments and stock any department store in the largest cities of the country.

A \$300,000 hotel has been erected on the highest accessible point in the valley. It is equipped throughout with all modern conveniences.

Concrete roads and streets are being built as rapidly as possible, the roads leading to the various points where the veins of coal in the mountains are expected to be opened.

BANDITS ESCAPE AFTER GUN FIGHT

TULSA, Feb. 15.—Two unidentified automobile thieves after a chase along the Sand Springs road in the vicinity of the municipal incinerator Tuesday afternoon escaped police officers following a running gun battle.

A Chandler four-passenger touring car owned by Mrs. N. R. Bell, Henrietta apartments, was stolen from in front of the postoffice late this afternoon. Following a report filed at police headquarters Detectives Bay Ward, Roy Meacham, J. B. Rigdon, Wade Poor and Charley Foley jumped into a police car and hurried out on the Sand Springs road.

The officers proceeded to Sand Springs without finding a trace of the car, but on the return trip met the men going toward Sand Springs. The thieves speeded past the officers and gained a long headway while the police car was being turned around.

Six shots were fired at the fleeing car, one shot shattering a spotlight near the driver's head. The thieves then abandoned the car and escaped in the woods along the Arkansas river.

Physician's Warning

We are constantly warned against the danger of allowing colds to develop. Mayr's Pine Needle Balm applied to the nose at the first suggestion of a cold will check it almost immediately. This stimulating pine fragrance is so soothing and healing that catarrh, and cold of the head, nose and throat clear quickly when it is used. Keep up your health by always having on hand a tube of Mayr's Pine Needle Balm and apply freely. This refreshing pine forest essence clears the nasal passages and promotes normal breathing. Sold in two sizes—30c and 60c tubes. Free trial by writing George H. Mayr, 219 W. Austin Ave., Chicago. Mayr's Pine Needle Balm is for sale by all druggists everywhere. Adv.

MOTHER OF SEVEN CHILDREN MURDERED

The little home of Mrs. Joseph Chernock, where she was slain.

While one of her seven children looked on, Mrs. Joseph Chernock was murdered in her home at Old Gate Lane, Milford, Conn. It is believed the murderer killed her to obtain \$82 she possessed. Charles Visosky of Bridgeport, Conn., was arrested, charged with the murder.

POSTAL SAVINGS SYSTEM SUCCESSFUL

SHANGHAI, Jan. 15.—(Correspondence of the Associated Press)—An experiment of the Chinese postal administration in providing facilities for postal savings is held to be successful in a report covering the new system's first six months period that has been issued by the director-general of posts.

Chinese postal savings banks were opened in eleven district head offices on July 1, 1919 and on the following October 15 branch offices were opened in 69 subsidiary post offices in these districts. In the first half year total deposits totalled

\$154,951 and withdrawals \$46,535. Transactions numbered 6,860 making the average sum involved \$29. The appearance of the report in December, 1920, is in accordance with leisurely official practice in China. No figures have been compiled for 1920.

Intestinal worms destroy the health of children and weaken their vitality. The worms should be expelled before serious damage is done. White's Cream Vermifuge is a thoroughly successful remedy. Price 35c. Sold by Hensler and Story.

SECOND SUICIDE TRY FATAL TO GIRL WIFE

TULSA, Feb. 16.—Separation from her husband of a month was today blamed for the suicide of 20-year-old Angeline Dewitt Drey, a manicurist here. Mrs. Drey died yesterday at the Regal Hotel, 218 North Main street, after having taken a quantity of poison tablets. It was her second attempt at suicide.

"I cannot live without him," she told Earnestine Berry, her room mate who found her after she had taken the poison dose.

"She loved him to distraction," Miss Berry said today. They were married a month ago in Sapulpa but only lived together three weeks.

The body was taken to Billings, Mo., today for burial. The husband, who works at the Hotel Tulsa accompanied the casket. Her only other relative here is a sister, Miss Eva DeWitt, who lives at 909 North Main street.

STOVES FOR SALE—One large coal burning stove equipped with gas burner and pipe; one two-burner hot-plate gas cook stove, no oven; two small 15-inch width Reznor gas heating stoves. All these stoves are in good condition and will be sold at a bargain either all or separately; can be seen at the News office. Call for Smith, Foreman Mechanical Department.

100,000 Bermuda Onions

WHEN YOU LAY YOUR PAPER ASIDE

After you've read the news, have you gotten all the valuable information out of it? Not until you have read the advertisements. Reading the advertisements should be just as much a part of your day as reading the news columns.

The advertisements in your favorite newspaper are a daily record of what your local merchants have laid in store to meet your needs and add to your comfort.

They tell you what the manufacturers of these goods, who are constantly striving to please the great American public, have done to add to your advantages and comforts. The news, while always interesting, may often concern you only in a general way. The advertisements are almost certain to tell you something that may mean a great deal to your home life or your business and social welfare.

Read the Advertisements, It Pays

You Can Depend on the Man Who Advertises

Nine times out of ten you will find that the man who advertises is the man who most willingly returns your money if you are not satisfied.

He has too much at stake to risk losing your trade or your confidence. You can depend on him.

He is not in business for today or tomorrow only, but for next year and ten years from next year. He knows the value of good will.

You get better merchandise at a fairer price than he could ever hope to sell it if he did not have the larger volume of business that comes from legitimate advertising and goods that bear out the promise of the printed word.

Don't miss the advertisements. This very day they call your attention to values that tomorrow you will be sorry you overlooked.

Don't Miss the Advertisements

THE COMFORTS of the AMERICAN HOME

It is a well-known fact that home for home, the American household has more comforts and conveniences than that of any other nation.

In foreign lands the modernized dwelling is found only in the better sections of the larger cities.

In America, even in remote rural districts, you find the piano, the vacuum cleaner, washing machines, up-to-date heating systems, telephones and numberless electrical appliances.

There is a well-kept look about residence, store or out-buildings with an atmosphere of prosperity and content.

Did you ever stop to realize why this is so; how this condition was brought about?

It is largely due to advertising. And a big share of the credit belongs to newspaper advertising.

Stop and think how many of the foods you eat, the things you wear and other articles entering into your everyday life, you first heard of thru newspaper advertisements.

You will then realize what a part they do play, or should play, in your daily life.

Read the advertisements in the newspapers regularly and thoroughly, if you are not already doing so. They mean more to you than you can tell.

Suppose There Were No More Advertisements

Just imagine for a minute that some power could stop all advertising. How would that affect you?

It would cut you off from all direct, commercial news about things that you need and use in your every-day life. Somebody might be selling a new, better, more economical food; or a utensil that would save money and time; or an article that would add greatly to your comfort and well-being; or some bet-

ter material for making shoes or clothing — but you would never know it.

Merchants and manufacturers would be unable to tell you about new and better things. They would thus find it hard to put these things on the market, and often would not try.

Merchants, unable to tell you what they had to offer you, could not take the risk of buying goods for which they might have no customers.

"It pays to advertise." And advertising pays not only the advertiser and publisher, but pays you too. It keeps you informed about the things you need in order to live a profitable, happy and useful life in this age of progress.

BANDITS LOOT IS HIDDEN IN HILLS

Indians Kill Bold Highwayman, But Can't Find Booty.

KENDRICK, Okla., Jan. 4.—More than \$15,000, mostly gold and silver, the loot of a single bandit, lies buried in the hills southeast of Kendrick, according to pioneer citizens and old Indians of the Sac and Fox tribes.

Tribal tradition relates that immediately after the government established the Sac and Fox agency, a stage line began operating which carried the Indians' regular allowance as well as passengers. This allowance was usually in gold. "Stage Stand," a stop-over on the stage run, was established in Creek county, on the banks of Salt Creek.

A stranger appeared at "Stage Stand" and dwelt for several days, the Indians say. As it was not customary, "nor very healthy," as the Indians tell with a smile, no inquiry was made into his or any other person's affairs. He disappeared as suddenly as he had appeared, the evening before the early morning arrival of the stage.

One of the passengers in the stage tells the story of the holdup which ended with the killing of the alleged bandit the next day.

Just as the horses were coming out of the water at the White Turkey Ford, a man stepped from behind the brush and ordered the driver to "stick 'em up." Search of the passengers brought little loot, but the bag containing the government money was discovered. Seizing the bag, which was very heavy, the party was ordered to "move on."

When the stage reached the agency, the Indians formed a posse and returned to the Ford. The bandit had employed the methods of the fox—he had back-tracked and made circles and semi-circles but late that evening his trail was picked up. After leaving the underbrush of the Deep Fork bottom the bandit took a westward course.

At dawn of the next day the posse saw a curl of smoke rising from a small ravine a few miles ahead. By instinct of the Indian, the bandit's trail had been followed, while the bandit, believing that his tracks had been covered had thrown caution away and was preparing his breakfast by fire.

The Indians descended upon the bandit, who, taken by surprise, opened fire on them. He was answered with a war yell and a volley of bullets. Several balls entered the bandit's body. A search of his belongings failed to reveal the government gold. Search was made over his entire track, believing that because of its weight the bandit had buried his treasure with the expectation of some day returning to claim it.

The camp of the bandit was made on what is now the Young farm, two miles southeast of Kendrick. A few years afterward, while clearing some land, Mr. Young found the bandit's revolver.

Church News

First Baptist Prayer Meeting.
The annual business meeting of the First Baptist church will be held tonight at the church at 7:30. At that time reports will be made to the church from the different organizations in the church, and a round table discussion will be held for the purpose of getting a better understanding of the work being done by the various organizations, and considering the needs of these organizations, which if met would increase the efficiency.

WEAK; RUN-DOWN
Carolina Lady Got So She Could Just Drag—"Cardui Built Me Up," She Declares.

Kernersville, N. C.—In an interesting statement regarding Cardui, the Woman's Tonic, Mrs. Wesley Mabe, of near here, recently said: "I have known Cardui for years, but never knew its worth until a year or so ago. I was in a weakened, run-down condition. I became draggy—didn't eat or sleep to do any good; couldn't do anything without a great effort. I tried different remedies and medicines, yet I continued to drag."

"I decided to give Cardui a trial, and found it was just what I really needed. It made me feel much stronger soon after I began to use it. I began to eat more, and the nervous, weak feeling began to leave. Soon I was sleeping good."

"Cardui built me up as no other tonic ever did."

"I used Cardui with one daughter who was puny, felt bad and tired out all the time. It brought her right out, and soon she was as well as a girl could be. We think there is nothing like Cardui."

Do not allow yourself to become weak and run-down from womanly troubles. Take Cardui. You may find it just what you really need. For more than 40 years it has been used by thousands and thousands, and found just as Mrs. Mabe describes.

At your druggist's. NO-142

GO TO THEATRE

At the American
Joseph J. Dowling, "the Miracle Man of the Screen" and one of the foremost character actors of to-day, heads the all-star cast of "The Kentucky Colonel," the newest Hodgkinson release which will be shown at the American Theater for two days beginning Thursday.

Mr. Dowling, who has had a long and splendid screen career, and whose truly wonderful impersonation of the Patriarch in "The Miracle Man" created comment of the greatest enthusiasm over the entire country, declares that his role of "Colonel Remington Osburn," the gallant old Kentucky Colonel from whom the photoplay takes its name gives him an even greater opportunity for characterization. This, coming from one of the ablest actors of the day, should mean something.

And it does—it means that when you see the Kentucky Colonel, you will see one of the most appealing figures in photoplay history—a figure that you will never forget.

As the courteous, old-fashioned gentleman representative of the type found below the Mason-Dixon line, Mr. Dowling is inimitable. In both comedy and tragedy he is equally convincing. Whether shown as the smiling, kindly old man dispensing hospitality and the never to be forgotten mint juleps from the cool white vastness of his old Colonial home, or as the man who wrongly accused by his boyhood chum, and driven from that same beloved home, is broken with grief and sorrow, this splendid actor comes up to the highest expectations.

A critic, in reviewing "The Kentucky Colonel," said: "Joseph J. Dowling as the Kentucky Colonel is just the kind of man that every boy and every girl wishes they had for a grandfather—jolly, kind, and sympathetic."

John W. Beard has just returned from Oklahoma City, where he witnessed the organization, yesterday, of the eighth Oklahoma legislature. While the house is republican and the senate slightly democratic, Mr. Beard stated that it was his opinion that there would be no political friction and that the session would be a conservative and business one.

The merchants who advertise in this paper are boosters. Trade with them.

CORK'S NEW MAYOR SLIPS INTO U.S.

Irish Patriot Comes As a Stowaway To Plead for His Country.

(By the Associated Press)

NEWPORT NEWS, Va., Jan. 5.—Donald J. O'Callaghan, lord mayor of Cork, Ireland, who arrived yesterday as a stowaway on the American steamer West Cannon in company with Peter McSwiney, brother of the late Terence MacSwiney, declared today that the editors of the New York nations had invited him to testify before the commission of the committee of one hundred at Washington, investigating the Irish situation. The statement was in answer to that of Frederick C. Howe, chairman of the committee, who said last night the lord mayor had not been asked to appear before the commission.

Immigration Inspector L. R. Parker, in charge of this port, said today he was still awaiting word from Washington as to the admissibility of the Irish official.

May Be Held
WASHINGTON, Jan. 5.—Investigation of the circumstances surrounding the entry into this country of Donald J. O'Callaghan, lord mayor of Cork, who arrived at Newport News yesterday as a stowaway and without a passport, was ordered today by the state department. Officials of the state department intimated that unless some extraordinary basis for extension was found it was probable that no distinction would be drawn between his case and that of any other stowaway.

17 Players Training

For Basketball at Ada High School

Coach Cox of the high school basketball team reports that about 17 players are undergoing intensive practice each day preparing for the coming games in the league recently formed here with the Normal and the Francis school.

"We are going after those trophies," Mr. Cox told the News last night.

HI-JACKERS CAUSE OF WORRY WHILE SOCIETY DANCES

OKMULGEE.—While two hundred of Okmulgee's society folk danced at the country club here more than a week ago, armed men patrolled the grounds outside the club house and the roads leading to it.

Following a "tip" the hostesses had received to the effect that "hi-jackers" were going to swoop down on the gathering when the dance was at its height, guards were stationed at the club house and its vicinity in anticipation of the rumored hold-up.

The tip came over the telephone, which declared that "hi-jackers" would "visit" the dance at a time when the jewels would be sparkling the brightest and gather up the gems as they fell from the necks and fingers of their owners.

Guests afterward said that the attendants were so nervous that they had difficulty in serving and while the chief superintendent the serving of the banquet, a revolver lay close at hand.

The rumored "hold-up" did not materialize, although the chauffeurs of motor cars, carrying away their wealthy and jeweled charges after the dance was over, drove with one hand, and in the other held loaded revolvers.

A Kentucky man was acquitted of his daughter's murder on proof that he had aimed at his wife instead of the daughter. We never expected to see the day when poor marksmanship would go unpunished in Kentucky.—Kansas City Times.

The Bartlesville Examiner is "stronger than horse radish" for John Fields for a cabinet position.

FACTIONS FIGHT IN STATE SENATE OVER COMMITTEE

(Continued from Page One.)
The case a lively encounter is forecast.

Spectators on Hand.
(By the Associated Press)

OKLAHOMA CITY, Jan. 5.—Galleries began to fill early as the hour drew on for the second day's session of the Eighth Oklahoma legislature to convene today. In anticipation of more "fireworks," which flashed over the horizon in the senate at the opening session yesterday, visitors seemed to vie with each other to secure seats of vantage. There was every indication that large crowds of spectators would be on hand until the surface difficulties and flares were over and the bodies settled down to routine business.

Seats were assigned in the lower house this morning and the legislators took their places accordingly in preparation for the afternoon session, the democrats on the east side of the chamber and the republicans on the west side. Many of the representatives had bills ready for introduction.

The senate chamber was astir as the members moved about "count-

ing noses" and preparing for the session. The first task before this branch will be the naming of the committee on committees, which almost precipitated a storm yesterday. More clashes were expected before the job was done. With this committee decided upon the senate was expected to launch into the naming of the 38 standing committees, which must be organized this week. A tilt was expected in the house when consideration of the contested seat of Wagoner county came up. T. P. Parkinson, democrat, holds the place on the temporary roll call, while D. P. Drake claims the place by reason of alleged failure of county election officers to count the ballots in one precinct, which he declared would have given him the election.

GO TO THEATRE

American.
A new William Fox picture, "Partners of Fate" which has recorded success elsewhere, is to be seen at the American theatre today with Louise Lovely, the new star, as its central figure.

The story, which is by Stephen Chalmers deals with the trials and tribulations that visit two young couples who discover shortly after marriage that fate has paired them off wrongly and dealt them mates with whom they never can be happy. Then, through the agency of a shipwreck, the two mismatched pairs find that fate has reshuffled and redealt the cards, each husband finding himself the companion of the other fellow's wife on a lonely tropical island. From this situation the plot develops in earnest.

McSwain.
The U. S. A. Girls at this theatre continue to please the patrons at every show. Jimmie Allard the comedian, is very clever, the chorus food to look at, and they dance too! The harmony quartet always gets encores. Today they are featuring a "Garter Contest." Each chorus girl wears a silk garter. Some number drawn by the patron will correspond with the number under the garter. This patron holding this number test the silk garter and the cash prize that is offered. Its clean and produced for fun. You'll enjoy it.

The picture program is a metro classic, "The lure of Youth," coming tomorrow, "Clothes."

"Clothes," the drama by Avery Hopwood and Chauncy Pollock, made an interesting and successful play when produced on the stage. Now it is on the screen. And it makes an incomparably better picture.

The screen drama will be Thursday at the McSwain theatre, Olive Tell, Crawford Kent, Cyril Chadwick, Frank Currier, Zeffie Tillybury, Rae Allen and Mary Beaton. It is a Metro production, done under the personal supervision of Maxwell Karger, Metro's director-general.

Miss Tell appears as Olivia Sherwood, a pleasure-loving, capricious, reckless young woman who has known nothing but wealth, and who is not even permitted to know that she has been left with only \$2,000 a year—nothing at all in Olivia's world—until the man who has been advancing her money, tells her the money was not left by her father, but that he had been giving it to her intending to "buy" her. His shocking disclosure precipitates a dramatic disaster.

Solved the Problem

"I was almost distracted with stomach trouble, gas and colic attacks and didn't know what to do. I have tried everything I heard of, and the doctor's medicine did not help me. A friend told me about Mayr's Wonderful Remedy, and it has solved the problem, as I can now eat anything and have no distress." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince of money refunded. Sold by Gwin & Mays and druggists everywhere. (11)

WOMEN CONTINUALLY OVERDO

This applies to all women, regardless of caste or color. The ambitious girl striving for school honors, the overworked housewife, the shop girl, girls in offices and stores, and the society woman, all climb too high, overtax their strength, and what follows? Nervous prostration, sleeplessness, backache, headaches, and the inevitable weakness and ailments peculiar to their sex soon develop, which unless checked bring on more serious conditions, and which often lead to operations. An efficient restorative for such ailments is Lydia T. Pinkham's Vegetable compound, which is now recognized from coast to coast as a standard remedy for women's ills. (7)

Instructions for making income tax returns are voluminous, but there is nary a suggestion as to the source of getting the money to pay the tax.

SET TRAPS FOR NITRO, WORTH 15 CENTS POUND

In the air above every acre of land in the south there floats, as free as the air itself—as part of the air, in fact—thousands of dollars' worth of nitrogen. This is the nitrogen that you now find difficulty in getting for 15 to 20 cents a pound. This the nitrogen to recover which the United States Government has spent millions of dollars and will spend many millions more, coaxing it from the air and combining it into forms of usefulness.

Crops cannot grow at all with out some nitrogen. They cannot be grown profitably without an abundance of nitrogen. Very nearly all of our southern soils are deficient in this element of fertility. The depleted supply we now have is rapidly decreasing on many farms through cropping systems practiced. This condition has been brought about by our failure to fully appreciate the great economic importance of the class of plants known as legumes.

Legumes are rich in nitrogen and have a feeding value superior to other plants. But their chief and distinguishing virtue lies in their power to take nitrogen from the air and "trap" or "fix" it in the soil in forms available for use by all plants.

This is a well-known fact. Practically every farmer will tell you that he already knows legumes are "good for the land." Nevertheless not one farmer in a hundred utilizes more than a small part of the nitrogen-trapping facilities that he should use. The legumes, now grown on the cotton and tobacco farms of the south are not sufficient to restore the nitrogen annually removed by crops or annually removed by soil wash.

Every section of each state has a number of legumes well adapted. In many kinds of clovers, cowpeas, and soy beans, in velvet beans, alfalfa, vetch, melilotus, lespedeza, etc., we have an array of "nitrogen-traps." These nitrogen traps if we but let them, will solve our soil fertility problems as far as nitrogen is concerned and at the same time make it possible to keep double the number of livestock now found on our farms and sustain them with better feeds than they are now getting.

Plan not alone for the present, but for the future also. Set nitrogen traps on half of your cotton and tobacco lands, after all your small grain, in all of your corn when it is laid by, and make the biggest "catch" of fertility you have ever made.

EVER HAVE IT?

If You Have the Statement of This Ada Citizen Will Interest You.

Ever have a "low-down" pain in the back?

In the "small," right over the hips? That's the home of backache. If it's caused by weak kidneys, use Doan's Kidney Pills. Ask people testify to their worth. Ask your neighbor. Read a case of it:

Mrs. R. B. Brown, 126 E. Tenth St., Ada, says: "Once I was down in bed with backache and other miseries caused by kidney trouble. I was so crippled up, I could hardly move in bed and the steady, grinding ache in my back racked my whole system. Doan's Kidney Pills helped me more than any other medicine I used and gave me such good relief, I never fail to speak highly of them."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Brown had. Foster-McBurn Co., Mfrs., Buffalo, N. Y. (28)

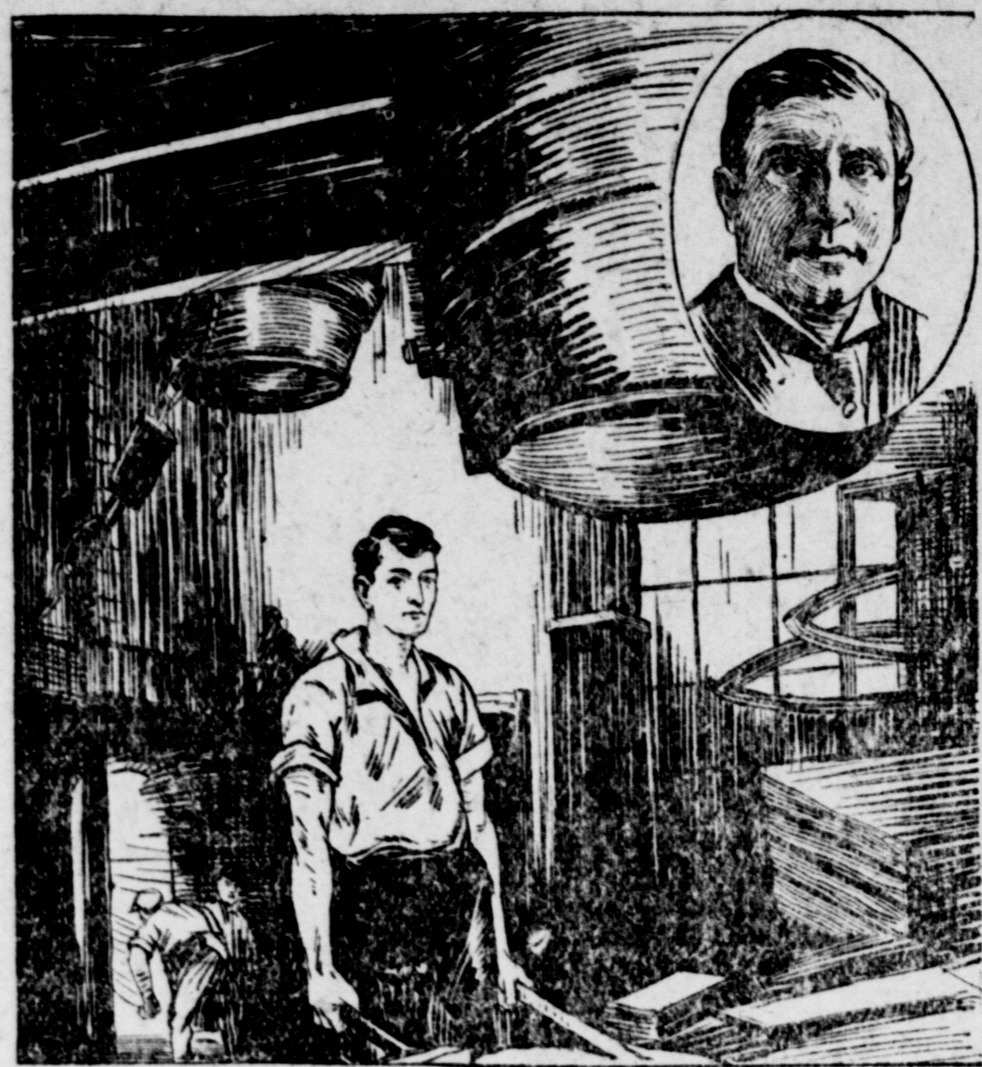

The man who is short on cash is not often found to be long on optimism.

It always makes a woman hot to have a neighbor treat her in a frosty manner.

What Every American Should Know About His Country and Its Opportunities

Charles M. Schwab as a Laborer in the Steel Mills

ONE of the most widely known men in the business world today is Charles M. Schwab, who is the principal owner of the second largest industrial enterprise in America, the Bethlehem Steel Corporation, employing two years ago 75,000 men, and with an annual pay roll of \$0 million dollars. Not many years ago this same man was a grocery-boy in a store at Braddock, Pa., earning \$30 a month (without board). The early youth of Charles M. Schwab was spent in the picturesque hamlet of Loreto, Pa., on the crest of the Alleghenies where his parents moved from Williamsburg, Pa. After a few years at St. Francis College where he became much interested in chemistry and engineering, he went to Braddock to work in a grocery store owned by a friend of his father.

From the first day he donned his apron he had an eye on the great steel mills there, the Edgar Thompson Works, owned by Carnegie Brothers & Company. One day Captain William R. Jones, then superintendent of the steel works, the right-hand man of Andrew Carnegie, and the best known steel-worker in the country, stepped into the store, and Schwab asked the Captain for a piece in the mill. He was given a job of driving stakes at a dollar a day. He started as that of a common laborer, and he was given all sorts of jobs to do. The young laborer soon began to familiarize himself with the workings of the plant, and in six years the dollar-a-

WARNING TO SWEET POTATO GROWERS

How to Get Best Results From Plant Seeds—Disease Spreading.

The greatly increased sweet potato acreage in recent years, together with the annual sale of millions of plants, by parcels post and express is responsible for the widespread distribution of several destructive diseases.

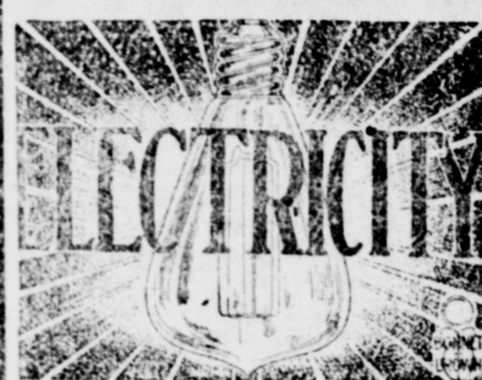

When the soil has become infested, these diseases are very difficult to eradicate or even control, and every precaution should be taken and every effort made to avoid or prevent their introduction.

The diseases are: (1) Stem-rot, also known as wilt, blight, and blue stem; (2) black-root; (3) footrot, or die-off; (4) scurf or rust; and (5) root-rot.

The means of control are found in the selection of seed free from disease, disinfection of seed, and deep and thorough cultivation, starting the plants in disease-free beds and setting them in infested fields.

While seed selection made in the field before the crop is harvested is an effective means leading to the control of these diseases it is too late to do this for the 1921 crop. The seed, however, should be disinfected just before they are bedded. Immerse the seed potatoes seven or eight minutes in a solution made by dissolving one ounce of corrosive sublimate in eight gallons of water. Use only wooden vessels and remember that corrosive sublimate is a deadly poison.

Grasping an opportunity has made some men millions—and landed others in jail.

The greater economy, not to mention the convenience, of using Electricity for your lighting needs, is quickly appreciated as soon as you try it.

Our prices for wiring, either new or old buildings is very reasonable. Phone 630 and we will furnish you an estimate

A Thought for the Week.

There is no reason why as intense, intellectual, and progressive a life should not be possible in the country as in the towns. The real reason for the stagnation is that the country population is not organized. We often hear the expression, "the rural community," but where do we find rural communities? There are rural populations, but that is altogether a different thing. The word "community" implies an association of people having common interests and common possessions, bound together by laws and regulations which express these common interests and

ideals, and define the relation of the individual to the community. Our rural populations are no more closely connected, for the most part, than the shifting sands on the seashore. Their life is almost entirely individualistic. There are personal friendships, of course, but few economic or social partnerships.—George W. Russell in "The National Being."

The truth always hurts after an attempt has been made to hide it behind a lie.

Many a man who clamors loudly for personal liberty will be likely to be untrue to another.

CHEAP ADVICE

Advice is one of the cheapest things in the world. It's as free as air. No matter what your trouble may be, just let it be known and advice will come piling in

The old maid knows just how to rear children, the bachelor knows just how a wife should be handled, and even a bald-headed druggist can sell hair tonic and get away with it. But the advice you seek not the kind that is volunteered, is the kind you want. We are not a volunteer in the advice business, but if you are a patron of our bank and ask advice on financial matters we will be glad to help you in any way we can.
